Preparing for a Technical Practitioners Meeting

Venue, facilities, technology and supporting information — with documented outcomes, timeous invitations and a distributed agenda

TIME	SESSION	MODULE	QUALITY ASSURANCE
90-minute lesson · Self & Group	Friday, 11 Sep 2026 · 09h00 – 14h00	Module 1 · Personal Development	QCTO / MICT SETA

What you must be able to do

Prepare for a technical practitioners meeting. You will be assessed against these criteria:

Physical arrangements

Venue, facilities, technology and supporting information are in place.

Documented outcomes

The intended outcomes of the meeting are clear, concise and well documented.

Timeous invitations

Participants are invited early enough to prepare and attend.

Agenda distributed

The agenda and supporting documentation are completed and distributed.

Physical arrangements — nothing left to chance

Preparation is where a meeting is won. Four arrangements must be in place before anyone walks in:

Venue

Booked, accessible and set up for the meeting style — seating that lets practitioners face each other.

Facilities

Whiteboards, flip charts, stationery, refreshments — everything the discussion will need.

Technology

Projector, video conferencing, network access — prepared and tested before the meeting starts.

Supporting information

Reports, designs and data the discussion depends on — available to every participant.

Outcomes and invitations

DOCUMENT THE OUTCOMES

- Intended outcomes are clear, concise and well documented
- The agenda is built around the outcomes
- Participants know what the meeting must achieve
- Afterwards, success is measured against the outcomes

INVITE TIMEOUSLY

- Participants get time to prepare and study the documentation
- Schedules can be arranged so the right people attend
- Include date, time, venue and the meeting's purpose
- Confirm attendance and arrange stand-ins where needed

PREPARE THE MEETING

The agenda — the meeting's roadmap

Complete the agenda and distribute it with the supporting documentation before the meeting.

Agenda element	What it does
Purpose & outcomes	States why the meeting is held and what it must achieve
Items in priority order	Important and urgent topics first — minor items at the end
Time per item	Discussion time allocated according to importance and complexity
Supporting documents	Reports and designs attached so participants arrive prepared
Roles	Chairperson, note taker (with a technical background) and presenters

Your work for Specific Outcome 2

Questioning session

“Preparing for a technical practitioners meeting” — typed answers, AI-marked.

Quiz 3

Preparing and chairing the meeting. 80%+ is competent.

Meeting portfolio

Draft the notice, agenda and invitations for the meeting you will chair — logbook evidence.

A meeting is won before it starts.

Venue » facilities » technology » supporting information » documented outcomes » timeous invitations » a distributed agenda — preparation turns meeting time into decision time.
